

Hacienda Car Wash

Case

We are responsible for washing police/first responder vehicles, healthcare worker vehicles, Uber/Lyft/Ride sharing vehicles, food delivery vehicles, and those of the public that still must go to work for other life sustaining purposes. Vehicles are by definition mobile and we view it as a social responsibility to remain open to sanitize and clean such vehicles to quell the spread of CoVid-19

Transportation & Logistics – Automotive repair and maintenance facilities (CISA.GOV)

<https://www.cisa.gov/sites/default/files/publications/CISA-Guidance-on-Essential-Critical-Infrastructure-Workers-1-20-508c.pdf>

- Transportation and Logistics: Employees supporting transportation functions including maintenance technicians

NAICS 8111 – Automotive Repair and Maintenance

811192 – Car Washes <https://www.naics.com/naics-code-description/?code=8111>

Southwest Car Wash Association believes car wash operations provide a basic and sanitizing service that is essential to the health and safety. There is a continuing need for automotive owners to keep their vehicles clean and safe. Police, Utility, Uber, and Lyft drivers have a continuing need to keep their vehicles clean and safe. People transporting the elderly; people assisting as volunteers or paid staff for non-profits offering essential services; people delivering goods and food need to maintain a safe environment. Car washes are just as important as gas stations or automotive repair centers during this critical time.
